**Art and Form** Sam Rose,2019-05-10 This important new study reevaluates British art writing and the rise of formalism in the visual arts from 1900 to 1939 Taking Roger Fry as his starting point Sam Rose rethinks how ideas about form influenced modernist culture and the movement's significance to art history today In the context of modernism formalist critics are often thought to be interested in art rather than life a stance exemplified in their support for abstract works that exclude the world outside But through careful attention to early twentieth century connoisseurship aesthetics art education design and art in colonial Nigeria and India Rose builds an expanded account of form based on its engagement with the social world Art and Form thus opens discussions on a range of urgent topics in art writing from its history and the constructions of high and low culture to the idea of global modernism Rose demonstrates the true breadth of formalism and shows how it lends a new richness to thought about art and visual culture in the early to mid twentieth century Accessibly written and analytically sophisticated Art and Form opens exciting new paths of inquiry into the meaning and lasting importance of formalism and its ties to modernism It will be invaluable for scholars and enthusiasts of art history and visual culture

**Grime, Glitter, and Glass** Nikki A. Greene, 2024-08-30 In *Grime Glitter and Glass* Nikki A. Greene examines how contemporary Black visual artists use sonic elements to refigure the formal and philosophical developments of Black art and culture. Focusing on the multimedia art of Rene Stout Radcliffe Bailey and Maria Magdalena Campos Pons, Greene traces the intersection of the visual's sonic possibilities with the Black body's physical representational and metaphorical use in art. She employs her concept of visual aesthetic musicality to interpret Black visual art by examining the musical genres of jazz and rap along with the often overlooked innovations of funk and rumba within art historiography. From Bailey's use of multilayered surfaces of glitter, mud, and recycled materials to meditate on Sun Ra's Afrofuturism to Stout's life-sized cast of her own body that recalls funk musician Betty Davis to Campos Pons's performative and sculptural references to sugar that resonate with the legacy of Celia Cruz, Greene outlines how these artists use mediums such as molded glass sculptures, viscous wet plaster, and dazzling manikin heads to enhance the manifestations of Black identity. By foregrounding the sonic elements of their work, Greene demonstrates that these artists use sound to make themselves legible, recognizable, and audible.

Heavyweight Jordana Moore Saggese, 2024-07-05 In *Heavyweight* Jordana Moore Saggese examines images of Black heavyweight boxers to map the visual terrain of racist ideology in the United States, paying particular attention to the intersecting discourses of Blackness, masculinity, and sport. Looking closely at the shadow archive of portrayals across fine art, vernacular imagery, and public media at the turn of the twentieth century, she demonstrates how the images of boxers reveal the racist stereotypes implicit in them, many of which continue to structure ideas of Black men today. With a focus on both anonymous fighters and notorious champions, including Jack Johnson, Saggese contends that popular images of these men provided white spectators a way to render themselves experts on Blackness and Black masculinity. These images became the blueprint for white conceptions of the Black male body existing between fear and fantasy, simultaneously an object of desire and an instrument of violence. Reframing boxing as yet another way whiteness establishes the violent mythology of its supremacy, Saggese highlights the role of imagery in normalizing a culture of anti-Blackness.
